Udny Speaks Up: Community Voices Shaping Our Future

We did it! That's January more or less done, and let's be thankful! Snow, rain, wind... yes, it's winter but we are so looking forward to some drier, brighter days and hopefully some green spring shoots peeking through soon!

One of January's highlights was Udny Climate Action's evening discussion on the Scottish Government's draft Climate Change Plan. It was a great chance for folk to come along, hear more about the proposals and share thoughts on how national plans might affect life closer to home. The World Café format allowed groups to have in-depth discussions on key issues covered in the plan: education, employment, transport, waste management, agriculture, energy, housing and more. We're looking forward to seeing the summary of the ideas that came out of the evening, that were fed back in response to the Scottish Government's consultation on the draft plan.

In another example of making our community's voice heard, Udny Community Trust is working with Udny Community Council on a Local Place Plan. This will be submitted to Aberdeenshire Council's Call for Ideas for the Local Development Plan 2029 — an important opportunity to make sure Udny's voice is heard when it comes to future development in our area. The plan will draw on information gathered during previous community consultations, including Imagine Udny (2019) and Re-Imagine Udny (2024), so that views already shared by local people will help shape what comes next. A draft Local Place Plan will be shared with the community in the next couple of weeks, with the opportunity to share your feedback and ideas. Please keep an eye out, have a read of the draft plan, submit your thoughts and make your voice heard!
